

Forecast For Northwest England
Issued by Met Office Exeter
at 0400 on Friday 17 Sep 2021

++ Valid for broadcast between 0600 and 1800

Headline:

Dry at first, but turning wetter over the weekend.

Today:

Overnight cloud and fog quickly clears giving a warm, dry and sunny day. However, some thicker cloud begins to build up from the west into the afternoon and some northern coastal areas start to see some rain by the evening. Maximum temperature 22 deg C (72 deg F).

Tonight:

A cloudy night, though some eastern areas still see some good clear spells. Some light rain lingers along coastal areas, especially to the north. Minimum temperature 12 deg C (54 deg F).

Saturday:

Turning cloudier throughout the region, as rainfall makes slow progress eastwards. This rainfall weakens through the day, often falling as patchy light rain or drizzle. Maximum temperature 22 deg C (72 deg F).

Outlook for Sunday to Tuesday:

Wet and cloudy on Sunday, with some organised heavy showers. Further showers into Monday and Tuesday, though these will be lighter and less frequent with some sunny spells in between.
